

Brentwood Service

336-883-2623

A big thanks to our customers for helping Brentwood Service celebrate a milestone last year, 20 years in business!

We would like to extend our gratitude by offering our “Loyal Customer Program”. Refer your family and friends to us and ask them to mention your name and you will receive a free premium oil change and tire rotation! (Keep in mind that the referrals have to be jobs other than oil changes, inspections, or tire work.) Brentwood Service offers a wide variety of services such as fluid flushes, brake work, tune-ups, alignments, check engine light, TPMS light, and ABS light issues.

Summer is just around the corner so make sure your vehicle is ready for summer travel by having your radiator coolant system checked. When we perform our premium oil change, not only do we check the coolant system, we also add a fuel treatment and oil treatment. To top it off, we check for fluid leaks, fluid cleanliness, belts, hoses, brakes, and tires.

Preventative maintenance saves money in the long run, but at Brentwood Service we will only recommend services instead of insisting on them! Allow us to ensure your dollar is spent wisely and honestly!

**Thanks!
Gary Anthony & John Anthony**
